

CLOWN LOACH

Botia macracantha

Very popular community fish, also useful for snail control. A shoaling fish, best kept in a group. Sensitive to 'white spot disease'. Provide some hiding places such as driftwood or cave-like structures.

Disclaimer: The information provided here is of a general nature only. There are site specific factors that are not addressed here that may also affect the health and well being of your fish, as such Coburg Aquarium will not be held liable for the performance of your fish.
