

### GREEN TREE FROG

*Litoria caerulea*

cleaned of dirt, but submerged in water.

#### RANGE

All states except Victoria and Tasmania

#### FEEDING

Crickets and woodies dusted with vitamin supplement

#### ADDITIONAL COMMENTS

The scientific name 'caerulea' is actually the Latin word for 'blue'. Specimens preserved in alcohol arrived in London in 1790. The alcohol is thought to have altered the frog's true colour to blue, and the name stuck.

#### KEEPING SNAPSHOT

<b>Difficulty:</b>	Beginner
<b>Max Growth Size:</b>	15cm
<b>Temperament:</b>	Docile.
<b>Licensing:</b>	Private Wildlife (Basic) Licence

#### HABITAT

<b>Heating:</b>	24 - 28 degrees C
<b>Lighting:</b>	UVA / UVB (Exo Terra 10.0 globes recommended)
<b>Environment:</b>	Half the tank should have water coverage to a depth of 15cm. Provide plenty of places to climb out. Vegetation like Spathophyllum (peace lily) can be added. Be wary of having dirt in your aquarium, as it can provide a breeding ground for bacteria. Spathophyllum will survive if the roots are
