

PLACIDOCHROMIS MILOMO VC10

Placidochromis milomo VC10

Carnivorous. Frozen foods, but also dry foods.

ADDITIONAL COMMENTS

The name VC10 was coined because the collector observed this fish travelled away from his nets at a speed similar to the jet airliner he sent his fish on! Females retain the same thick black bands as per juvenile fish, mature males develop a bright blue head and a gold spotted body. VC10's typically develop large very thick lips.

KEEPING SNAPSHOT

Difficulty:	Intermediate
Max Growth Size:	25 cm
Temperament:	Territorial, keep with Rift Lake Cichlids

PREFERRED WATER PARAMETERS

Temperature:	23-27 degrees celsius
pH Level:	7.5-8.5
General Hardness:	Hard

RANGE

Africa: Lake Malawi

REPRODUCTION

Mouthbrooder: after spawning, the females incubate the eggs in their mouth until the fry are free-swimming. Males will mate with multiple females. The fry are easily raised with first foods such as baby brine shrimp.

FEEDING
