

BLUE EYE - DELICATE

Pseudomugil tenellus

including frozen & live foods.

ADDITIONAL COMMENTS

When kept in a school, Blue-eye males put on elaborate fin displays to impress females and to outshine rival males. Best kept in planted aquaria, either in a single species tank or with other small fishes. Suitable for nano tanks, also useful for mosquito control in frog ponds in the tropics.

Disclaimer: The information provided here is of a general nature only. There are site specific factors that are not addressed here that may also affect the health and well being of your fish, as such Coburg Aquarium will not be held liable for the performance of your fish.
