

RED DEVIL

Amphilophus citrinellum/labiatus

ADDITIONAL COMMENTS

Often kept as a single pet fish, adult Red Devils are real personality fish. Their colouration can vary from pale to bright red, specimens less than 12cm show little or no colour. Adults are nearly always extremely aggressive - even to their owners!

Disclaimer: The information provided here is of a general nature only. There are site specific factors that are not addressed here that may also affect the health and well being of your fish, as such Coburg Aquarium will not be held liable for the performance of your fish.
