

SALVINI

Nandopsis salvini

ADDITIONAL COMMENTS

Despite their aggressive nature, Salvini are a popular American Cichlid. Shows nice colour from a young age. Females remain smaller than males and can be identified by a black bar in the dorsal fin. Provide plenty of hiding places.

Disclaimer: The information provided here is of a general nature only. There are site specific factors that are not addressed here that may also affect the health and well being of your fish, as such Coburg Aquarium will not be held liable for the performance of your fish.
