

GREEN MALE FIGHTER

Betta splendens

appreciates occasional feeds of live foods.

ADDITIONAL COMMENTS

Male Fighters are extremely popular pets because of their exotic finnage and bright colours. In nature these fish inhabit very weedy habitats and are perfectly adapted to living in small spaces. If kept in a nano tank or other small receptacle, ensure the Fighter is not kept too cool.

Disclaimer: The information provided here is of a general nature only. There are site specific factors that are not addressed here that may also affect the health and well being of your fish, as such Coburg Aquarium will not be held liable for the performance of your fish.
