

WOLF CICHLID (DOVII)

Parachromis dovii

ADDITIONAL COMMENTS

Adults are efficient fish predator with impressive canine teeth! Grows quickly and is very territorial. Provide plenty of hiding places. Males grow much larger than females and are more intricately patterned.

Disclaimer: The information provided here is of a general nature only. There are site specific factors that are not addressed here that may also affect the health and well being of your fish, as such Coburg Aquarium will not be held liable for the performance of your fish.
