

RED FLAME DWARF GOURAMI MALE

Trichogaster lalia

Omnivorous. Eats all normal foods.

ADDITIONAL COMMENTS

Sometimes shy at first, but soon settles in. Prefers a well planted tank, also with some floating plants. Very popular, has been selectively bred into various brightly coloured strains. Males have more pointed fins and are much brighter coloured.

KEEPING SNAPSHOT

Difficulty:	Beginner
Max Growth Size:	6 cm
Temperament:	Peaceful, community fish.

PREFERRED WATER PARAMETERS

Temperature:	23-27 degrees celsius
pH Level:	6.6-7.5
General Hardness:	Soft-Moderate

RANGE

North east India (wild form)

REPRODUCTION

Males build a bubble nest amongst plants at the surface. After spawning, the eggs are guarded by the male until the fry have hatched and are free-swimming. The fry require tiny live food such as Paramecium.

FEEDING
